stated that it is not the kind of business they need on Babbitt way and noted that it was a cul-de-sac that does not go out to a main road. Adam Costa, Town Council, was present on Zoom. He stated that if they were to grant the special permit, they may be required to take their land out of the 61A designation and pay rollback taxes. Discussion continued. Ms. Plogger stated that the Mr. and Mrs. Rodrigues were having parties every Saturday, Sunday, and Monday between Memorial Day and Labor Day. Mr. Vaz asked the Board of Selectmen to take the neighbors into consideration. Ms. Cochrane asked if the residents of 11 Babbitt Way had gone and talked to their neighbors. They stated that they did not, mainly because of COVID-19 but are open to have a meeting with all of their neighbors. Discussion continued. Ms. Jeanene Jones, 6R Old Berkley St, stated that on the weekends it was very loud, there was a PA system, and that music was playing until 10 p.m. She stated that the traffic and noise alarming and disruptive. Mr. and Mrs. Rodrigues apologized for the noise over the summer and have learned a lot from the meeting. Mr. Miller explained that there are certain limitations and criteria the Board needs to follow and has a lot of things to take into consideration. The following factors are taken into consideration: social economic or community needs served by the proposal, traffic flow and safety including parking and loading, adequacy of utilities and other public services, neighborhood character and social structures, impacts on natural environments, and potential fiscal impact including town services, tax base, and employment. He explained that they cannot do anything based on personal reasons. Regarding the first factor, social economic or community needs served by the proposal, Mr. Miller stated that he thinks it is admirable, but does not know if the town has a great need for a petting zoo or horseback riding, but would give some economic boost. The next factor, impacts on natural environment, Mr. Miller stated he does not see any impact on the natural environment. Ms. Cochrane asked if there were any other conservation violations. Mr. and Mrs. Rodrigues stated that they are working with the Conservation Committee in regards to a dock. Mr. Miller noted that it was not in their application and were not applying for that at the moment. The next addressed factor was potential fiscal impact included town services, tax base, and employment. Mr. Miller stated that it is a family run business and does not affect the town on employment. He did mention that he has a little concern about absence over time requiring them to have police, EMS, and fire going there, but he does not see it being overly burdensome to the town. The next two factors, Mr. Miller said, go hand in hand. Regarding neighborhood character, Mr. Miller stated that it is a relatively, narrow, residential road. He stated he was concerned about the cul-de-sac dead end. The next factor addressed is traffic flow and safety. Mr. Miller pointed out that there was a lot of neighbor input regarding traffic and noise. He noted that 80-100 cars a day is a significant addition of traffic to a dead-end street and would be hard to control. Mrs. Rodrigues stated that it would not be every Saturday and Sunday and they would be unable to operate in the Winter. Ms. Cochrane stated that on ~~October 7th~~ ^{September}, she counted 31 cars drive up and down the street in the amount of time she was there. She also noted that there was someone at the gate taking admissions and a website will attract more people that you cannot control. Mr. Miller recapped certain points made. He stated the biggest issue is character of neighborhood and traffic. Discussion continued. Mr. Miller noted that typically, they do not grant permits in residential areas and that most people move to residential areas to get away from businesses and loud noises. Mr. Costa, Town Council, stated that if they denied the special permit tonight, the residents would have to wait two years before applying again but could request to withdraw with a vote from the Board which will allow them to reapply again with no time freeze. Ms. Cochrane noted that the cease and desist is still in place. Mr. and Mrs. Rodrigues requested to withdraw. Mr. Costa, Town Council, noted that any escrow moneys could be refunded deducting what has been spent. The Board of Selectmen voted to accept the withdrawal of the special permit application. Mr. Miller thanked Mr. and Mrs. Rodrigues and wished them luck.

Larabee motion to accept withdrawal, Cochrane 2nd voted.
