state already does have guidelines but cautions that the guidelines may change so making a decision tonight may be a little premature. Mr. Miller stated he thinks there will be less houses participating but has no problem with it. Board to discuss State Primary and General Election issues. It was brought to the Board of Selectmen's attention from multiple sources that there were serious issues that occurred during the State Primary involving 2 potential candidates. Mr. Miller stated into the record that the Board of Selectmen attempted to have a meeting with the Town Clerk but she canceled within a few hours of it. He also stated that with the very serious election coming up, it is important for them to address, discuss and find out exactly what occurred to potentially solve the problem. Town Clerk, Ms. Deborah Pereira, stated that after the election they have 7 days to certify. She stated that she came in on a Saturday morning to input the numbers but the State was closed for the long weekend. She stated that she contacted the State Tuesday to unlock her certification so she can make the clerical change. Mr. Miller stated that this involved write in candidates and was caught by the candidate, not the Town Clerk. He noted that only 1 of Berkley's precinct write in votes were reported; out of 203 votes, only 40 were initially presented. Mr. Miller stated that it is very important that all votes are counted but the issue is that she did not catch it, the candidate did. He also noted that the same thing happened in the Town of Franklin and the Town Clerk resigned. Mr. Miller then stated that Mr. Robert Riendeau took out papers to run for the School Committee at Bristol Plymouth. He came to drop off the papers on the last day and the Town Clerk's office was closed early. Ms. Pereira stated that there was a drop box outside. She stated that he turned in 3 sheets of nomination papers and the following morning she started certifying them. Mr. Miller noted that she did not receive the papers until the next day. Ms. Cochrane received the papers and verified that they were here on time. Ms. Pereira stated that the papers were defective. Mr. Riendeau had passed in 3 papers; two of them had his name in the candidate box and the 3rd paper did not. He also did not have enough signatures and Ms. Pereira could not accept them. Mr. Miller stated that these types of mistakes cannot be made. He also stated that in November, they will put it on the town meeting agenda to see if they want to make that position appointed. Mr. Miller noted that it was brought to their attention and noted that both the Boston Globe and the Taunton Gazette has been notified. Mr. Miller had stated that according to what he was sent, there were 157 votes not counted. Ms. Pereira stated that is was only 65 votes that were put in as general write ins. Mr. Miller noted that the Board of Selectmen tried to have a meeting with Ms. Pereira last Thursday. Ms. Pereira stated that she could not attend for personal reasons and asked for the meeting to be put into executive session but was refused. Mr. Miller stated that her request was not refused, the meeting did not have the right criteria to be put into executive session. Mr. Miller offered Ms. Pereira extra help and could speak to Ms. Martin-Sterling but she stated that she has it all under control with her poll workers. Ms. Jeanne Russo asked Ms. Martin-Sterling to read aloud #1 of reasons to go into executive session. Ms. Martin-Sterling noted that she did have a conversation with town council and he stated that it did not qualify to be executive session. Ms. Martin-Sterling read #1 into the record. Discussion continued. Mr. Miller noted that people need to know if votes are not being counted and the meeting could have been held last Thursday. He also mentioned that there was no request to reschedule the meeting. Ms. Martin-Sterling stated that after the Town Clerk was invited to the meeting, she had spoken with Ms. Pereira and reassured her that it was not to be an inquisition. Ms. Pereira stated that it could have been presented to her in a different way. Discussion continued. Mr. Larabee stated that we are all on the same team, but need to find a way to work through these kinds of things. He stated that although it is a reasonably serious error, it is one that can be worked through and can try to gain back the confidence of the Board of Selectmen and taxpayers.
